PROJECTS

NATIVE AMERICAN ART SCAVENGER HUNT GAME
Repo: github.com/LaurenDarrimon/srjc-museum-app
Site: srjcstudentsites.org/museum/
- Interactive e-learning application and scavenger hunt game for the Santa Rosa Junior College Multi-Cultural Museum exhibit of western North American Art, with emphasis on local Indigenous communities
- Mini learning games and educational content designed for 3rd and 4th-grade students on field trips
- Built using Node.js, React, Bootstrap React, React Context API, React Router Dom, and React DnD.

GIT MATCH
Repo: github.com/LaurenDarrimon/git-match
Site: morning-sea-85016.herokuapp.com
- Full Stack MERN social network application for new developers to find collaboration, community, and groups
- Built UI, managed React state, configured type definitions, resolvers, queries & mutations, designed logo
- Utilized React.js, Apollo GraphQL, MongoDB, Node.js, Express.js, and GitHub API

NEIGHBORGOOD!
Repo: github.com/LaurenDarrimon/community-share
Site: hidden-forest-09542.herokuapp.com
- Full Stack free-cycling application where users log in to post items and claim used items offered by others
- Engineered REST API routes to update a relational database. Built server-side templating and cloud-based storage
- Employed MVC architecture, Handlebars.js template engine, MySQL, Sequelize, Express.js, and Express Session
